

### All Star/ Post Season Teams

Coaches, in an effort to streamline and help out our post-season coaches, we are asking for your help. At this point, everyone should have his or her rating sheets done. We are asking you to help out by telling us who you think is a candidate for post season. Remember that most teams will only have two or at most three all-star players. We want to know who your stars are, if they play offensive, defense or a particular position well, if you have any great goalies, if you have players on your team who have parents that referee. We also want to know if these kids come to practice and have a good attitude. All these factors come into play when coaches choose their team. Please fill out the information below and don't forget to put in jersey #'s for those that you want them to look at. Please remember that all this information is confidential and that ratings and all-star recommendations should never be discussed with parents. Although coaches rely on this information, there is no guarantee that the child you recommend will get chosen.
